QMS - Incident Reporting & SLA Policy

1. Purpose

This policy sets the foundation for how **incidents**—any event disrupting services, systems, or data which are managed within the organization.

Objectives:

- Minimize downtime and operational risk
- Ensure consistent response across teams
- Meet international standards such as **ISO/IEC 27001:2022**, which focus on event logging, response planning, and communication.
- Enable audit-readiness and regulatory compliance

2. Scope

This policy applies to **all employees, vendors, and contractors** interacting with any organizational technology or process.

Core Teams:

- **Technical:** Developers, QA, DevOps, Infra, Cloud
- **Leadership:** PMs, SMs, Delivery Managers
- **Support:** CISO, QMS Team
- **Service Functions:** IT Consulting, Product, Testing

3. Incident Categories

Incidents are grouped by nature to streamline triaging and accountability.

Category	Description	Example
Security	Breaches or unauthorized access	Phishing, malware, data exfiltration
Compliance	Legal, regulatory, or contractual violations	GDPR breach, client data mishandling

4. Incident Reporting Procedure

A. Immediate Reporting

- Anyone who **notices or suspects** an incident must email incidentreporting@ideas2it.com. This ensures a **quick start to investigation** and **accountability tracking**.
- Email must include:
 - Timestamp
 - What went wrong
 - Systems/modules affected
 - Business impact
 - Any fixes already attempted
 - Contact information for follow-up

		Page	5 of 8

B. Initial Triage – Role of QMS Team

- Responds within 30 minutes
- Assigns severity:
 - **Low:** Cosmetic issue
 - **Medium:** Service impacted but not blocked
 - **High:** Major user impact
 - **Critical:** Security, legal, or data breach
- Identifies **escalation path**
- Preserves evidence (logs, screenshots, etc.) for compliance or forensic needs

5. Reporting & Escalation Matrix

A. Reporting Roles & SLAs

Role	Responsibility	Escalates To	Reporting Timeframe
Developer/QA	Raise incident immediately	Tech Lead, PM, QMS Team	30 mins
Tech Lead	Validate, try initial fix	PM, QMS Team	1 hour
PM / Architect	Conduct RCA, coordinate resolution	SM, DM, QMS Team	2 hours
SM / DM	Assess business impact, approve communication to Client leadership	CISO	4 hours

5. Incident Lifecycle (Step-by-Step)

Phase	Description
Detection & Notification	Incident is observed (by person or monitoring system) and immediately notified to QMS Team (qms@ideas2it.com)
Recording & Classification	QMS team logs incident in tracker, assigns severity, and send the incident register details to the Project POC to update the relevant fields
Containment & Mitigation	Temporary solutions applied to limit damage (e.g., shutting down access, restarting service, restore the code)
Investigation & Resolution	- Root cause analysis (RCA) to be performed by the project team. - Long-term fix to deploy and validate the solution
Communication	Project PM / SM keeps the stakeholders informed about the issue
Post - Incident Review	Within 48 hours from the issue rectification, project team to perform the below, - Lessons learned session - Corrective and Preventive Actions (CAPA) - SOP updates (if required) - Perform gap analysis on systems/processes

		Date	04/08/2024
		Revision No	1.0
		Page	7 of 8

Phase	Description
	- Inform teams about any changes - Record findings in risk register - Plan preventive automation or training if needed
Closure	QMS Team will do the following during the incident closure, - Final status marked as "Closed". - All evidence documents from the project team are archived securely.

7. Compliance & Auditing

- **All incidents** are auditable under QMS protocols
- QMS Team will **preserve the evidence** documents securely in common accessible drives for leadership access
- **Reports available** for:
 - Internal auditors
 - Clients (if required)
 - Regulators (if required)

8. QMS Key Contacts

- Incident Reporting Email: incidentreporting@ideas2it.com

No	Employee ID	Employee Name
1	I18000	Gayathri V (CISO)
2	I09010	Arun G (Sr.Tech Director)
3	QMS Core Team	Kalpana, Abarna V, Senthilkumar Kannadasan, Krishnan, Manibharath
