Objective

All employees of Ideas2IT Technology Services Private Limited shall support and ensure to protect the IT assets of the organization.

Scope

This document applies to all full time, part time and contract employees of the Ideas2IT Technology Services Private Limited and its subsidiaries.

Definition

IT asset means laptop/s, mouse, headphone, laptop charger, speaker, pen drive, headset, data card, hard disk, mobile, tablets, SIM card and any other IT assets/equipment's provided to an employee to deliver his/her services at Ideas2IT until he/she is associated with the Company.

Process

- **New Joiners-** HR Team to inform the System Admin Team on the new joiner details seven business days before the date of joining to get the required assets (Laptop, Laptop Bag & Laptop Charger) ready along with the e-mail id creation.
- **Employees-** Employee to send a request email to System Admin team along with manager's approval while requesting for Data card, headset, or any other assets.
- All the assets provided by the organization to the employee should be returned as in the condition while it was provided while exiting. The failure to do so, will lead to the appropriate amount being deducted from your salary while processing full and final settlement.

Policy Guidelines

It is Ideas2IT Technology Services Private Limited's policy that the employee shall be fully responsible for lost, stolen, broken or damaged IT asset/equipment that has been issued to an employee to be used during his/ her employment with Ideas2IT Technology Services Private Limited.

a) Case of damage/broken asset:

- Employees shall inform System Admin about the damaged/broken asset immediately (within 1 business day) at systemadmin@ideas2it.com, marking copy to his/her reporting manager.

- Employees are responsible for proper care of IT Assets issued, including repair or replacement of IT assets damaged as a result of negligent use.
- Employees must provide adequate security to the asset and return the asset in the same condition as it was before usage.

b) Case of stolen/loss of asset:

- Employees shall inform system admin team, the reporting manager and HR team about the lost/ stolen asset immediately (within 1 business day) at systemadmin@ideas2it.com and hr@ideas2it.com.
- Employees shall file an FIR in the nearby Police station and obtain a copy of FIR, which shall be submitted to the System Admin team and the HR team within 2 business days.
- The System Admin department shall immediately freeze all communication to the lost/ stolen IT asset.

c) Recovery of Amount in case of damage/broken/loss/stolen

- Employees have to bear the expenses towards broken/damaged assets at actuals and in the case of theft/stolen, the recovery of cost will be decided at the sole discretion of the management.
- Screen/Physical/Liquid damage – Screen/Physical/Liquid damage will not get covered under warranty, hence in such cases the employee shall bear the cost of repair at actual.
- The recovery amount can be transferred to Ideas2IT Technology Services Private Limited bank account or can be recovered through the monthly payroll of the employee.

Other asset – docking station, pen drive, hard disc, data card, laptop charger/ bag/mouse, headset, mobile phone, etc. (assets mentioned above but not limited to)

- The amount would be determined by the System Admin team based on asset value, date of purchase, etc.

Laptop Security Best Practices:

Physical Security:

- An employee shall ensure the safety and security of the laptop and should never be left unattended in any location.
- An employee shall never leave the laptop on the work desk overnight and the Company will not take the responsibility if the asset is stolen/theft.

Technical Security:

- The System Admin team protects the laptop with hard drive encryption.
- Encryption is vital for making sure data on the laptop doesn't fall into the wrong hands in case the laptop is lost or stolen.
- Full disk encryption makes the laptop unusable to anyone to avoid data theft. Even if the disk is foisted out of the machine and installed on a test bed, the data is gibberish.
- An employee shall always lock the laptop while being away always!
- Save important work-related files to your cloud (Google Drive).

Enforcement:

Since data security and integrity along with asset protection is critical to the operations of Ideas2IT, employees who do not adhere to this policy shall be subject to disciplinary action up to and including keep them educated about the latest techniques and methods of IT asset policy.

Disclaimer:

The applicability, eligibility of the Asset Policy may be implemented and/or changed by the management of Ideas2IT from time to time at the sole discretion of management of Ideas2IT and such implemented and/or changed shall become applicable to the employees immediately, upon receipt of notice of the same.
