1	1.0	28-Sep-2022	Initial	Admin Team	Arun Ganesan

Objective

To grant access to the Ideas2IT Technology Services Private Limited facility for authorized personnel only, to prevent loss and damage or to prevent compromise of physical assets including information in physical form and to minimize interruptions to business activities by implementing adequate physical access controls.

Scope

This is applicable to all across the Ideas2IT Technology Services Private Limited premises and all Employees in Ideas2IT.

Eligibility

Access Request for

- All permanent employees
- Contract employees
- Vendors
- Guest/Visitor

Guidelines

ID and Access card

Employees and Contract Employees

- Admin team shall be responsible to issue the ID and Access card to all the employees joining the organization.
- ID card needs to be displayed prominently by all Ideas2IT Technology Services Technology Services Limited employees while in the office premises and shall not be given to any other person to gain entry into office premises.

- Personnel with Worn-out/damaged ID card shall not be allowed entry into the facility.
- Access cards are enabled with specific access rights based on a need to enter basis by the Admin team and are "Non-transferable".
- Proxy swiping, tail gating and misuse of access rights is not allowed, any violations shall be reported to HR.
- Employees will be provided access rights to their regular workplace only.
- Only authorized employees will be allowed to enter restricted areas such as server room / ups room or any other place.
- Employees who forget to bring ID card will be given a temporary card with access for the specific day. Please reach out to the ground floor security desk.
- At the time of separation from the company, employee's ID card and Access cards should be returned to the Admin team as part of the Exit Clearance Process. ID card will be destroyed, and access will be disabled.
- On loss of ID/Access card employee should immediately inform the Admin team over an email. On receipt of information of loss of access card, the admin team shall ensure immediate revocation of all access rights to avoid any misuse.
- Employee should raise a Service Request in iAssistant for a new ID and access card.
- Loss of ID and access card will be issued on a chargeable basis. ID card INR 50 and Access card INR 150.

Guest and Vendors

- Any planned visits should be communicated by the host department in three working days advance through an e-mail to the Admin team.
- On the day and time of meeting, guests should report at the reception desk to facilitate the entry to the facility.
- At the reception desk, identity of the guest will be validated through a government issued photo identity card. In the case of domestic visitors- driver's license, PAN card, Voter's ID card, Passport, Aadhar card and in the case of foreign nationals- in addition to any of these, Business cards and individual's company ID cards are not considered valid form of identity proof.
- Guests' baggage is liable to security check.
- On arrival of host, guests are issued with visitor ID card which must be worn and displayed prominently.
- The host should escort the guest during the entire duration of their visit.
- Host is responsible to ensure that guest ID and access cards are returned to the security desk at the reception at the end of the visit.
- Official guests visiting for more than a day will be managed on a daily basis for guest ID card issuance. However, if the duration of visit is over 15 days, the host may apply for a non-employee ID badge. In this case an access card will also be issued and enabled as per the access control matrix. The host requesting for the ID badge and access card is responsible for return of

the same to the Admin team. In case the access card is not returned the cost of the access cards has to be borne by the host.

- Personal guests should not proceed to areas other than common areas such as cafeteria and ground floor lobby.

Access to sensitive areas

- Access shall be given to restricted area on based on the necessity and approval by authorized personnel.
- Admin team will maintain list of sensitive areas in each location.

List of Sensitive areas are

- Server rooms, CCTV Room, UPS / Electrical Room
- Any other area which will be declared as sensitive from time to time

Unattended user equipment

Any unused/unattended device being found by Admin team or handed over by an employee to Admin Team, it would be communicated and stored with Admin team for a period of one working day.

Key Management

- Original keys of Main doors and other lockable areas such as storeroom, UPS room, storage lockers etc. will be available with Admin team.
- One set each of duplicate keys would be kept with admin team
- Original keys should be issued to the authorized personnel or his representatives on need basis. Admin team will maintain list of authorized persons for withdrawal and deposition of keys.
- In case of any emergency like fire, natural calamities, security should use the original keys to enter the area to control the situation. Concurrence of the authorize person to be taken at the earliest opportunity. Appropriate recording of such key movement must be maintained.
- Keys should be labeled, and easily retrievable and key issue register will be maintained by admin team.
- Loss of keys will be necessitated to change of locks by the admin team and cost will be borne by concerned user.
